Re: Notice of Violation and Intent to File Suit under the Clean Water Act

To Whom It May Concern,

We are writing on behalf of Riverkeeper, Inc. ("Riverkeeper"),¹ to notify you of Riverkeeper's intent to file suit against All County Mobile Concrete Inc., John Bernal, Jr., and All About Recycling, Inc. (collectively, "All County Mobile Concrete") pursuant to Section 505(a) of the federal Clean Water Act ("CWA")² for violations of the CWA.

Riverkeeper intends to file suit, as an organization and on behalf of its adversely affected members, in the United States District Court for the Southern District of New York seeking appropriate equitable relief, civil penalties, and other relief no earlier than 60 days from the postmark date of this letter.³

¹ Riverkeeper, Inc. is a not-for-profit environmental organization existing under the laws of the state of New York, headquartered in Ossining, New York. Riverkeeper's mission includes safeguarding the environmental, recreational, and commercial integrity of the Hudson River and its ecosystem, as well as the watersheds that provide New York City with its drinking water. Riverkeeper achieves its mission through public education, advocacy for sound public policies, and participation in legal and administrative forums. Riverkeeper has more than 3,800 members, many of whom reside near to, use, and enjoy the Hudson River and the waters and tributaries of the Hudson River and New York Harbor, including the Saw Mill River—waters that are polluted by industrial stormwater runoff.

110 WALL STREET · NEW YORK, NEW YORK 10005 TEL: 212-242-2355 FAX: 855-242-7956 www.superlawgroup.com

² 33 U.S.C. § 1365(a). We refer to statutory provisions by their section in the Clean Water Act and provide the parallel citation to the United States Code only on first reference.

³ See 40 C.F.R. § 135.2(a)(3)(c) (notice of intent to file suit is deemed to have been served on the postmark date).

Notice of Violation and Intent to File Suit June 2, 2022 Page 2 of 18

Riverkeeper intends to take legal action because All County Mobile Concrete is discharging polluted stormwater from its ready-mix concrete facility located at 451 Old Nepperhan Avenue, Yonkers, NY 10703 ("the Facility"), to the waters of the United States without a permit in violation of CWA Sections 301(a) and 402(p).⁴ Further, All County Mobile Concrete has not applied for coverage under, nor complied with the conditions of, an individual National Pollutant Discharge Elimination System ("NPDES") permit or the Multi-Sector General Permit for the Discharge of Stormwater Associated with Industrial Activity ("General Permit")⁵ issued by the New York State Department of Environmental Conservation ("DEC"), in violation of CWA Section 402(p), and 40 C.F.R. §§ 122.26(c)(1) and (e)(1).

I.

BACKGROUND

With every rainfall event, hundreds of millions of gallons of polluted rainwater pour into the Hudson River, the Saw Mill River, and other receiving waters. The consensus among agencies and water quality specialists is that stormwater pollution accounts for more than half of the total pollution entering the marine environment each year.⁶

To protect the waters of the United States from such pollution, the CWA prohibits the discharge of pollutants from a "point source" into the waters of the United States without a National Pollutant Discharge Elimination System ("NPDES") permit. NPDES permits are issued by the United States Environmental Protection Agency ("EPA") or by states that have been authorized by EPA to act as NPDES permitting authorities, provided that the state permitting program ensures compliance with the procedural and substantive requirements of the CWA. In New York, DEC has been delegated the authority to issue NPDES permits. As a delegated state NPDES permitting agency, DEC has elected to issue a statewide general permit for industrial stormwater discharges in New York. The current version of the General Permit came into effect on March 1, 2018. DEC also has the authority to issue SPDES permits for individual applicants.

DEC has designated more than 7,000 river miles, 319,000 acres of larger waterbodies, 940 square miles of bays and estuaries, and 592 miles of Great Lakes shoreline in the State as "impaired," or not meeting water quality standards, and unable to support beneficial uses such as fish habitat and water contact recreation.⁸ For the overwhelming majority of water bodies listed as impaired, stormwater runoff is cited as a primary source of the pollutants causing the

⁴ 33 U.S.C. §§ 1311(a) and 1342(p)(2)(B).

⁵ SPDES Multi-Sector General Permit For Stormwater Discharges Associated With Industrial Activity, Permit No. GP-0-17-004, N.Y. DEP'T ENVTL. CONSERVATION (Mar. 1, 2018) [hereinafter General Permit], https://www.dec.ny.gov/docs/water_pdf/msgp017004.pdf. This General Permit replaces earlier general permits for the discharge of stormwater associated with industrial activity and will expire on February 28, 2023.

⁶ Stormwater is water from precipitation events that flows across the ground and pavement after it rains or after snow and ice melt. *See* 40 C.F.R. § 122.26(b)(13).

⁷ CWA § 402(b)(1), 33 U.S.C. § 1342(b)(1); 40 C.F.R. § 123.25(a).

⁸ New York Assessment Data, U.S. ENVTL. PROT. AGENCY (2012), http://ofmpub.epa.gov/waters10/attains_state. report_control?p_state=NY&p_cycle=2012&p_report_type=A; see also NYS Section 305(b) Water Quality Report, N.Y. DEP'T ENVTL. CONSERVATION (2018), http://www.dec.ny.gov/chemical/66532.html

Case 7:22-cv-06607-PMH Document 1-2 Filed 08/03/22 Page 4 of 19

Notice of Violation and Intent to File Suit June 2, 2022 Page 3 of 18

impairment. Contaminated stormwater discharges can and must be controlled in order to improve the quality and health of these waterbodies.

Stormwater discharges flow from the Facility to the Saw Mill River overland and through drains. Given the Saw Mill River's position directly adjacent to the Facility, and the presence of storm drains at the Facility and on the public street adjacent, Riverkeeper believes stormwater reaches the Saw Mill River through both means.

DEC has classified the Saw Mill River, where the Facility discharges, as a Class C water. ¹⁰ Under New York's Water Quality Standards, a waterbody that is designated as C is meant to be suitable for fishing and for fish, shellfish, and wildlife propagation and survival, as well as for potential use for primary and secondary contact recreation. ¹¹ The New York Water Quality Standards also set numeric and narrative criteria for different water pollution parameters including dissolved oxygen, oil and grease, suspended and settleable solids, bacteria (pathogens), pH, temperature, nutrients, and others. ¹² A waterbody must meet these numeric and narrative criteria in order to support its designated uses.

The Saw Mill River consistently fails to meet state water quality standards; illegal stormwater discharges from this Facility contribute to this failure.¹³ DEC has designated the Saw Mill River as impaired pursuant to CWA Section 303(d)¹⁴ for failure to meet minimum water quality standards for dissolved oxygen and multiple pollutants, including phosphorous and fecal coliform.¹⁵

While the Saw Mill River is a heavily developed waterway, its water quality should not be sacrificed. At a minimum, All County Mobile Concrete must stop illegally discharging polluted stormwater and other effluents.

II.

STANDARDS AND LIMITATIONS ALLEGED TO HAVE BEEN VIOLATED AND ACTIVITIES ALLEGED TO BE VIOLATIONS

A. <u>All County Mobile Concrete Is Discharging Stormwater Associated with Industrial Activity to Waters of the United States without a Permit.</u>

⁹ See generally NYS Section 305(b) Water Quality Report, Executive Summary, at 6, https://www.dec.ny.gov/docs/water_pdf/section305b2018.pdf (identifying urban stormwater runoff as a top ten source of water quality impairment).

¹⁰ 6 N.Y.C.R.R. Part 859.4.

¹¹ 6 N.Y.C.R.R. § 701.8.

¹² See generally §§ 702, 703 (outlining quantitative and qualitative standards, respectively).

¹³ Section 303(d) List of Impaired Waters Requiring a TMDL/Other Strategy, N.Y. DEP'T ENVTL. CONSERVATION, 6 (June 2020), https://www.dec.ny.gov/docs/water_pdf/section303d2018.pdf [hereinafter "303(d) List"] ¹⁴ 33 U.S.C. § 1313(d).

Case 7:22-cv-06607-PMH Document 1-2 Filed 08/03/22 Page 5 of 19

Notice of Violation and Intent to File Suit June 2, 2022 Page 4 of 18

The CWA prohibits the discharge of pollutants to the waters of the United States except in accordance with a valid NPDES permit.¹⁶ All County Mobile Concrete's industrial activity at the Facility has caused and continues to cause a "discharge of pollutants" within the meaning of CWA Section 502(12)¹⁷ and a "stormwater discharge associated with industrial activity" within the meaning of 40 C.F.R. § 122.26(b)(14) from the Facility on at least each and every day that there has been a rain event of more than 0.1 inches.¹⁸

On its website, All County Mobile Concrete characterises itself as "providing site-batched concrete." All County Mobile Concrete's activities at the Facility include but are not limited to: the collection, processing, and storage of substances and equipment used in the manufacture of ready mix concrete; and the storage, cleaning, and maintenance of vehicles and equipment for the manufacture, transportation, and pouring of ready-mix concrete. Upon information and belief, the Facility houses truck washing equipment and materials piles that are all potential sources of industrial pollutants. In addition, chemical totes have been observed on the facility outdoors—unsheltered and uncontained. All County Mobile Concrete stores raw materials such as sand and aggregate on site, stores cement on site, transfers the materials to trucks, washes out trucks at the Facility, and stores a variety of other materials and open containers on site, exposed to stormwater.

In carrying out these activities at the Facility, All County Mobile Concrete stores and handles materials in a manner that exposes them to precipitation and snowmelt. In particular, raw materials piles, machinery, uncontained chemical totes, and trucks that have completed their deliveries can release pollutants onto the Facility property including aggregate, sand, Portland cement, cement additives, waste materials reused in concrete manufacture and other minerals such as shale, clay, limestone, slate, slag, pumice, fly ash, baghouse settled dust, recycled demolition debris, oil, and grease. If specialty concretes or cast/formed products are demanded by a customer, the Facility may also house form release agents, latex sealants, and bitumastic coatings. All of these wastes can release solids that suspend or dissolve in stormwater, lead, iron, zinc, oil and grease, oxygen-demanding and pH-altering pollutants into the Saw Mill River.²⁰

Trucks and other vehicles driving on and off the property are point sources of pollution. The Facility uses heavy vehicles and stores machinery outdoors. Besides the wastes they carry, vehicles and industrial equipment at the Facility may expose many other pollutants to the elements, including gasoline, diesel fuel, anti-freeze, and hydraulic fluids. All County Mobile Concrete's trucks constitute point sources of water pollution in and of themselves.

All of these pollution sources are exposed to precipitation and snowmelt. In addition to waste residues, these pollution sources also may release fuel, oil, lubricants, PCBs, PAHs, an array

¹⁶ CWA §§ 301(a), 402.

¹⁷ 33 U.S.C. § 1362(12).

¹⁸ EPA has determined that precipitation greater than 0.1 inches in a 24-hour period constitutes a measurable precipitation event for the purposes of evaluating stormwater runoff associated with industrial activity. *See, e.g.*, 40 C.F.R. § 122.26(c)(i)(E)(6) (using 0.1 inches as the distinguishing threshold of a storm event).

¹⁹ ALL COUNTY MOBILE CONCRETE INC., www.allcountymobileconcrete.com (last visited June 22, 2021).

²⁰ See Industrial Stormwater Fact Sheet Series – Sector E, EPA-833-F-06-020, U.S. ENVTL. PROT. AGENCY (Feb. 2021), https://www.epa.gov/sites/default/files/2015-10/documents/sector_e_glass.pdf.

Notice of Violation and Intent to File Suit June 2, 2022 Page 5 of 18

of metals, pH-affecting substances and chemical residues. These toxic pollutants are often generated in the form of small particulate matter, which settles on the ground and other surfaces that are exposed to stormwater and non-stormwater flows.

Because All County Mobile Concrete fails to adequately shelter and otherwise contain these materials to prevent their release to the environment, precipitation falls on and flows over exposed materials, fluids, and particulates. Polluted stormwater discharges flow from the Facility to the Saw Mill River.

The Saw Mill River is a "water of the United States," as defined in 40 C.F.R. § 122.2 and, therefore, "navigable water" as defined in CWA Section 502(7). All County Mobile Concrete does not have a NPDES permit for these discharges of pollutants. Thus, All County Mobile Concrete is discharging polluted industrial stormwater into navigable waters of the United States without the permit required under CWA Sections 301 and 402.

B. All County Mobile Concrete is Failing to Apply for NPDES Permit Coverage.

All County Mobile Concrete is engaged in the business of the manufacture of ready-mix concrete and the collection, processing, and storage of substances used in such manufacture. All County Mobile Concrete is therefore an industrial discharger engaged in manufacturing ready-mix concrete under Standard Industrial Classification ("SIC") Code 3273, which is an industrial activity included in Sector E of the General Permit. Pursuant to CWA Section 402(p) and the regulations promulgated by EPA pursuant to the CWA, All County Mobile Concrete must apply for coverage under the General Permit or an individual NPDES permit for All County Mobile Concrete's discharge of polluted stormwater. In addition, All County Mobile Concrete must apply for an individual NPDES permit if the Facility is discharging process wastewater, or has any other non-stormwater discharge containing pollutants, that is not authorized by the General Permit. By failing to apply for coverage under the General Permit or an individual permit, All County Mobile Concrete is violating CWA Sections 301(a), 402(a) and 402(p) and 40 C.F.R. §§ 122.26(c)(1) and (e)(1).²¹

To be eligible to discharge stormwater associated with its industrial activities under the General Permit, All County Mobile Concrete must submit to DEC a registration form called a "Notice of Intent."²² To register, All County Mobile Concrete is required, among other things, to list all stormwater discharges, to describe each of the industrial activities taking place in the

²¹ Sections 301(a) and 402(a) and (p) make it unlawful for All County Mobile Concrete to discharge stormwater associated with industrial activity without obtaining a NPDES permit. 40 C.F.R. Sections 122.26(c)(1) and (e)(1) require All County Mobile Concrete to apply for a NPDES permit that covers All County Mobile Concrete's discharge of stormwater associated with industrial activity.

²² General Permit, supra note 5, Part I.D.1.a.2. In notifying All County Mobile Concrete that it is violation of the General Permit, Riverkeeper does not concede that all of the activities conducted at the Facility are necessarily eligible for coverage under that permit. For example, if a Facility is discharging process wastewater, such as wash water, or has any other polluted non-stormwater discharge that is not authorized by the General Permit, then an individual NPDES permit is required and the failure to obtain and comply with an individual NPDES permit for such discharges also violates CWA §§ 301(a) and 402(p). The conditions for eligibility to discharge under the General Permit are provided at Part I.B of the permit.

Case 7:22-cv-06607-PMH Document 1-2 Filed 08/03/22 Page 7 of 19

Notice of Violation and Intent to File Suit June 2, 2022 Page 6 of 18

drainage area of each discharge and the acreage of industrial activity exposed to stormwater, the immediate surface water body or wetland to which site runoff discharges, and the name of the watershed and nearest waterbody to which the site ultimately discharges and information about whether the receiving waters are impaired. All County Mobile Concrete has failed to prepare and file a Notice of Intent or an application for an individual permit.

C. All County Mobile Concrete is Failing to Comply with the General Permit.

As a discharger of stormwater associated with industrial activity, All County Mobile Concrete must comply at all times with the requirements of the General Permit (or an individual permit). By discharging stormwater associated with industrial activity without complying with the General Permit, All County Mobile Concrete is violating CWA Sections 301(a) and 402(a) and (p).²³ The following summarizes the main General Permit requirements that All County Mobile Concrete has failed and continues to fail to meet.

1. All County Mobile Concrete has not developed and implemented a Stormwater Pollution Prevention Plan.

Before submitting a registration form, All County Mobile Concrete must prepare, make available, and implement a Stormwater Pollution Prevention Plan ("SWPPP") in accordance with schedules established in the General Permit.²⁴ The SWPPP must identify potential sources of pollution that may affect the quality of stormwater discharges associated with industrial activity. Further, the SWPPP must describe and ensure the implementation of practices that minimize the discharge of pollutants in these discharges and that assure compliance with the other terms and conditions of the General Permit, including achievement of effluent limitations.²⁵

Among other things, the SWPPP must include: a general site description; a general location map identifying the location of the facility and all receiving waters to which stormwater discharges; information related to a company stormwater pollution prevention team; a summary of potential pollutant sources; a description of control measures and best management practices; and schedules and procedures for implementation of control measures, monitoring, and inspections.²⁶

All County Mobile Concrete has not developed and implemented a legally compliant SWPPP for the Facility, as required by Part III of the General Permit.²⁷

²³ Sections 301(a) and 402(a) and (p) make it unlawful for All County Mobile Concrete to discharge stormwater associated with industrial activity without first complying with all of the conditions established in a NPDES permit.

²⁴ General Permit, supra note 5, Part III.C.

²⁵ *Id.*, Part III.A.

²⁶ Id

²⁷ Riverkeeper believes no SWPPPs exist for the Facility. If a SWPPP exists at the Facility, then it is either facially inadequate or has not been fully and adequately implemented.

Notice of Violation and Intent to File Suit June 2, 2022 Page 7 of 18

2. All County Mobile Concrete has not implemented control measures and Best Management Practices that meet the best available technology standards.

All County Mobile Concrete cannot legally discharge stormwater under the General Permit from the Facility until All County Mobile Concrete implements mandatory general and sector-specific control measures called Best Management Practices ("BMPs") in order to minimize the discharge of pollutants from the Facility. The selected measures must reduce the discharge of pollution from each Facility to the extent practicable through use of the best available technology for the industry.

The General Permit requires that the owner or operator must select, design, install, and implement control measures (including best management practices), in accordance with good engineering practices, to meet the effluent limits contained in the permit.²⁹ The General Permit's effluent limits include both limits specific to certain sectors³⁰ and limits that apply to all facilities.³¹ These restrictions include minimizing the exposure of pollutants to stormwater and minimizing the discharge of pollutants in stormwater to the extent achievable using control measures (including best management practices) that are technologically available, economically practicable, and achievable in light of best industry practice.³²

All County Mobile Concrete has not minimized the exposure of pollutants or the discharge of pollution to the extent achievable by implementing control measures or BMPs that are technologically achievable and economically practicable and achievable in light of best industry practice, as required by Parts II and VII of the General Permit.

3. All County Mobile Concrete has not conducted routine site inspections and complied with monitoring, recordkeeping, and reporting requirements.

All County Mobile Concrete must conduct an annual comprehensive site inspection and evaluation of areas where industrial materials or activities are exposed to precipitation or where spills and leaks have occurred within the past three years.³³ The inspection must ensure that all stormwater discharges are adequately controlled and that all BMPs are functioning as expected.³⁴ Records of this inspection must be kept for five years.³⁵

²⁸ General Permit, supra note 5, Part II.D; see also id., Part VII (setting forth sector-specific control measures and practices).

²⁹ *Id.*, Part II; *see also id.*, Part III.A.7 ("The SWPPP must document in writing the location and type of BMPs installed and implemented at the facility to achieve the non-numeric effluent limits in Part II.A. and where applicable in Part VII, and the sector specific numeric effluent limitations in Part VII.").

³⁰ See generally id., Part VII (laying out sector-specific requirements).

³¹ *Id.*, Part II.

³² *Id.* ("Effluent limits are required to minimize the discharge of pollutants. The term 'minimize' means reduce and/or eliminate to the extent achievable using control measures (including Best Management Practices . . .) that are technologically available and economically practicable and achievable in light of best industry practice.").

³³ General Permit, supra note 5, Part IV.A.1.

³⁴ *Id*.

³⁵ *Id.*, Part IV.A.2.

Case 7:22-cv-06607-PMH Document 1-2 Filed 08/03/22 Page 9 of 19

Notice of Violation and Intent to File Suit June 2, 2022 Page 8 of 18

In addition, qualified facility personnel must carry out routine inspections at least quarterly.³⁶ During these inspections, personnel must evaluate conditions and maintenance needs of stormwater management devices, detect leaks and ensure the good condition of containers, evaluate the performance of the existing stormwater BMPs described in the SWPPP, and document any deficiencies in the implementation and/or adequacy of the SWPPP.³⁷ Such deficiencies must then be addressed through corrective actions.³⁸

The General Permit requires that all covered facilities conduct multiple types of analytical monitoring, and DEC may require additional individualized monitoring as well.³⁹ In particular, all facilities authorized under the General Permit must, at minimum:

- conduct visual monitoring of stormwater discharges at least quarterly;⁴⁰
- collect and analyze stormwater samples for each outfall at least semi-annually;⁴¹
- perform an annual dry weather inspection to detect non-stormwater discharges;⁴²
- inspect, sample, and monitor discharges from secondary containment structures and transfer areas;⁴³
- document storm events during which any samples are taken;⁴⁴
- document all of these monitoring activities;⁴⁵
- keep records of the monitoring with the Facility's SWPPP;⁴⁶ and
- submit an annual report to DEC accompanied by a Discharge Monitoring Report detailing the results of all required stormwater samples, as well as reports that document any instance of non-compliance with benchmarks or numeric effluent limitations.⁴⁷

Moreover, as All County Mobile Concrete engages in industrial activities associated with Sector E associated with concrete or gypsum product manufacturing, sampling is required for:

- Total Suspended Solids
- pH; and
- Iron. 48

Riverkeeper is not necessarily aware of all industrial activities taking place at the Facility. To the extent that industrial activities other than the above are carried out at the Facility, other

Notice of Violation and Intent to File Suit June 2, 2022 Page 9 of 18

sampling may be required as well.⁴⁹ This notice provides All County Mobile Concrete with sufficient information to identify the standards and limitations that apply to all categories of industrial activity.

All County Mobile Concrete has failed at the Facility to conduct the required annual and other routine inspections, monitoring, and testing, as required by, at least, Parts IV, VI, and VII of the General Permit. All County Mobile Concrete has also failed to retain records and submit monitoring reports to DEC pertaining to the Facility, as required by, at least, Parts IV, VI, and VII of the General Permit.

4. All County Mobile Concrete has failed to comply with additional requirements located in Part VII of the General Permit.

As noted above, the General Permit contains various requirements specific to Sectors E and P. These requirements are collected in Part VII of the General Permit. All County Mobile Concrete has failed to comply with these additional requirements of Part VII of the General Permit.

In sum, All County Mobile Concrete's discharge of stormwater associated with industrial activities without a permit, All County Mobile Concrete's failure to apply for permit coverage, and All County Mobile Concrete's failure to comply with the above-listed conditions of the General Permit (or an individual NPDES permit) constitute violations of the General Permit and of Sections 301(a) and 402(p) of the Clean Water Act.

III.

PERSONS RESPONSIBLE FOR ALLEGED VIOLATIONS

All County Mobile Concrete, Inc., John Bernal, Jr., and All About Recycling, Inc. (collectively, "All County Mobile Concrete") are the persons responsible for the violations alleged in this Notice. All County Mobile Concrete has operational control over the day-to-day industrial activities at this Facility. Therefore, All County Mobile Concrete is responsible for managing stormwater at the Facility in compliance with the CWA. Riverkeeper hereby puts All County Mobile Concrete on notice that if Riverkeeper subsequently identifies additional persons as also being responsible for the violations set forth above, Riverkeeper intends to include those persons in this action.

IV.

LOCATION OF THE ALLEGED VIOLATION

The violations alleged in this Notice have occurred and continue to occur at the Facility located at 451 Old Nepperhan Avenue, Yonkers, NY 10703. Stormwater associated with industrial activity discharges into the Saw Mill River. The failure to develop and implement pollution

⁴⁹ See generally General Permit, supra note 5, Part VII (outlining sector-specific requirements).

Notice of Violation and Intent to File Suit June 2, 2022 Page 10 of 18

prevention plans and take the other required measures are violations occurring at the Facility in general and in the inadequate documents themselves.⁵⁰

V.

DATES OF VIOLATION

Every day upon which All County Mobile Concrete has failed to apply for permit coverage since All County Mobile Concrete first commenced operations at the Facility and discharged polluted stormwater is a separate violation of CWA Section 301(a) and EPA's regulations implementing the CWA.⁵¹

Additionally, All County Mobile Concrete has discharged pollution without a permit in violation of Section 301(a) of the CWA on every day since All County Mobile Concrete commenced operations at the Facility on which there has been a measurable precipitation event or discharge of previously accumulated precipitation (i.e., snowmelt) over 0.1 inches.

Appendix A sets forth specific rain dates on which Riverkeeper alleges that the Facility discharged storm water from its unpermitted outfall in violation of Section 301(a) of the Clean Water and of the General Permit. The second column shows precipitation. Riverkeeper alleges that the Facility discharged stormwater on each day of these events, as either 0.1 inch of rain or 1.0 inch of snow (shown here in water-equivalent inches) fell on these days. This list of dates is not exclusive, and Riverkeeper hereby notifies All County Mobile Concrete that Riverkeeper intends to take legal action regarding any other days on which Riverkeeper later learns that All County Mobile Concrete discharged pollutants from the Facility. In sum, Riverkeeper alleges that the Facility discharged stormwater from its unpermitted outfall on 419 days.

Finally, if All County Mobile Concrete seeks permit coverage after receiving this letter but fails to fully comply with the requirements of the General Permit (or an individual permit), each day upon which All County Mobile Concrete claims coverage under a NPDES permit but fails to comply with that permit will constitute a separate day of violation with respect to each unmet condition of that permit.

All County Mobile Concrete is liable for the above-described violations occurring prior to the date of this letter, and for every day after the date of this letter that these violations continue. In addition to the violations set forth above, this Notice covers all violations of the CWA evidenced by information that becomes available to Riverkeeper after the date of this

⁵⁰ The federal courts have held that a reasonably specific indication of the area where violations occurred, such as the name of the facility, is sufficient and that more precise locations need not be included in the notice. *See, e.g.*, *NRDC v. Sw. Marine, Inc.*, 945 F. Supp. 1330, 1333 (S.D. Cal. 1996), *aff'd* 236 F.3d 985, 996 (9th Cir. 2000); *City of New York v. Anglebrook Ltd. P'ship*, 891 F. Supp. 900, 908 (S.D.N.Y. 1995); *United Anglers v. Kaiser Sand & Gravel Co.*, No. C 95-2066 CW, 1995 U.S. Dist. LEXIS 22449 at *4 (N.D. Cal. Sept. 27, 1995).

⁵¹ See also 33 U.S.C. §§ 402(p)(3)(A) and (p)(4)(A) (requiring the establishment of industrial stormwater NPDES permits and of a permit application process).

Notice of Violation and Intent to File Suit June 2, 2022 Page 11 of 18

Notice of Intent to File Suit.⁵² These violations are ongoing and, barring full compliance with the permitting requirements of the Clean Water Act, these violations will continue.

VI.

RELIEF REQUESTED

Riverkeeper will ask the court to order All County Mobile Concrete to comply with the CWA, to pay penalties, and to pay Riverkeeper's costs and legal fees.

First, Riverkeeper will seek declaratory relief and injunctive relief to prevent further violations of the Clean Water Act pursuant to Sections 505(a) and (d) and such other relief as permitted by law. Riverkeeper will seek an order from the Court requiring All County Mobile Concrete to obtain NPDES permit coverage and to correct all other identified violations through direct implementation of control measures and demonstration of full regulatory compliance.

Second, pursuant to CWA Section 309(d),⁵³ each separate violation of the CWA subjects All County Mobile Concrete to a penalty not to exceed not to exceed \$59,973 per day.⁵⁴ Riverkeeper will seek the full penalties allowed by law.

Third, pursuant to CWA Section 505(d), Riverkeeper will seek recovery of its litigation fees and costs (including reasonable attorney and expert witness fees) associated with this matter.⁵⁵

VII.

IDENTIFICATION OF COUNSEL

Riverkeeper is represented by legal counsel in this matter. The name, address, and telephone number of Riverkeeper's attorneys are:

Edan Rotenberg, Esq. Benjamin Pierce, Esq. Super Law Group, LLC 110 Wall Street New York, New York 10005 (212) 242-2355

IX.

CONCLUSION

The foregoing provides more than sufficient information to permit All County Mobile Concrete to identify the specific standard, limitation, or order alleged to have been violated, the activity alleged to constitute a violation, the person or persons responsible for the alleged violation, the location of the alleged violation, the date or dates of such violation, and the full name, address, and telephone number of the person giving notice.⁵⁶

If All County Mobile Concrete has developed a SWPPP, Riverkeeper requests that All County Mobile Concrete send a copy to the undersigned attorney.⁵⁷ Otherwise, Riverkeeper encourages All County Mobile Concrete to begin developing a SWPPP immediately after receiving this letter and asks that All County Mobile Concrete please inform the undersigned attorney of All County Mobile Concrete's efforts so Riverkeeper can work with All County Mobile Concrete to avoid disputes over the contents of the SWPPP.⁵⁸

⁵⁶ 40 C.F.R. § 135.3(a).

⁵⁷ Note that under Part III.C.2 of the General Permit, the owner or operator of a facility "must make a copy of the SWPPP available to the public within 14 days of receipt of a written request."

⁵⁸ Riverkeeper will not send a new notice letter in response to any effort All County Mobile Concrete makes to come into compliance with the Clean Water Act after receiving this letter, for example, by developing a SWPPP. The federal courts have held that citizens sending a notice letter are not required to identify inadequacies in compliance documents that do not yet exist and are "not required to send a second notice letter in order to pursue specific claims regarding the inadequacies of [a defendant's] post-notice compliance efforts." *WaterKeepers N. Cal. v. AG Indus. Mfg.*, 375 F.3d 913, 920 (9th Cir. 2004). *See also Sw. Marine, Inc.*, 236 F.3d at 997 (9th Cir. 2000) ("subject matter jurisdiction is established by providing a notice that is adequate on the date it is given to the defendant. The defendant's later changes . . . do not retroactively divest a district court of jurisdiction under 33 U.S.C. § 1365(b)."); *Anglebrook Ltd. P'ship*, 891 F. Supp. at 908 (S.D.N.Y. 1995) (plaintiff's notice letter based on inadequacies of defendant's original SWPPP held sufficient to establish court's jurisdiction, even though defendant later prepared a revised SWPPP).

Notice of Violation and Intent to File Suit June 2, 2022 Page 13 of 18

During the sixty-day notice period, Plaintiff is willing to discuss effective remedies for the violations noted in this letter that may avoid the necessity of protracted litigation. If All County Mobile Concrete wishes to pursue such discussions, please contact the undersigned attorney immediately so that negotiations may be completed before the end of the sixty-day notice period. We do not intend to delay the filing of a complaint in federal court, regardless of whether discussions are continuing at the conclusion of the sixty days.

Sincerely,

Benjamin Pierce Edan Rotenberg Super Law Group, LLC 110 Wall Street New York, New York 10005
